

## Quality Policy

Adaptive Recognition Hungary Zrt strives to satisfy customers by providing world-class service in the development, production, and sales of image processing software and equipment. Expectations and requirements of stakeholders within the external and internal business environment are considered in all operations and are essential in executing the strategy, goals, and the effective operation of the business management system of Adaptive Recognition Hungary Zrt. The company aims to occupy a leading position among businesses engaged in similar activities.

Regardless of the quality management system, the company's management is determined to ensure that:

- All operational processes are carried out in a purposeful, accurate, and orderly manner
- All employees perform their job according to a set of well-defined rules, with a risk-aware mindset, and in a traceable and controlled manner.

For these purposes, Adaptive Recognition Hungary Zrt acts as follows:

- The company's management is committed to a quality management system per the requirements of the ISO 9001: 2015 standard in order to implement its business philosophy of fully satisfying customer needs
- The company's management do their best to ensure that employees are fully familiar with this system and effectively implement it in their respective fields
- Products developed and sold by the company answer customer needs
- Development efforts aim to predict customer needs and provide customers with a choice of products and services that answer them.
