

INTELLIO VIDEO SYSTEM 5 SYSTEM REQUIREMENTS

Minimum hardware and software requirements of Intellio Server 5:

Minimum requirements	
Operating system	Windows Server 2012, 2016, 2019, Windows 10 (64-bit version) or higher
CPU	Min. 2nd generation Intel Core (i3 / i5 / i7-2xxx or later) or Intel Xeon (E3 / E5 / E7 or later) or equivalent AMD (min. Core i5 3GHz recommended).
Memory	4 GB RAM or greater (8 GB is recommended)
Storage	FAT32, NTFS or SMB/CIFS file system storage (DAS, NAS, SCSI, iSCSI, SATA)
Video card	For hardware video decoding: nVidia CUDA 6.0 (or later) support for mid- or high-end VGA (min. NVidia GTX1060 3GB or later recommended).
Minimum storage capacity	16 GB + the buffer capacity
Network port	1000 Mbps network card (TCP/IP protocol support)
Network connection	Local Area Network or / and Wide Area Network connection

Minimum hardware and software requirements of Intellio Client 5:

Minimum requirements	
Operating system	Windows 10 (version 1709, 64-bit) or higher
CPU	Min. 2nd generation Intel Core (i3 / i5 / i7-2xxx or later) or equivalent AMD (min. Core i5 3GHz recommended).
Memory	4 GB RAM or greater
Video card	DirectX9.0c or later version VGA card, Pixel Shader 2.0, 512 MB RAM or greater For hardware video decoding: DXVA2-capable mid-range video card (nVidia GTX1060 3GB or later recommended)
Sound card	DirectX compatible sound card
Display resolution	1366 x 768 pixel or greater (1920 x 1080 recommended)
Network port	1000 Mbps network card (TCP/IP protocol support)
Network connection	Local Area Network or / and Wide Area Network connection

Minimum software requirements of Intellio Mobile Client 5:

Minimum requirements	
Operating system	Android 4.0 / iOS 6.0 or later
